MARCH/MARS

Editorial Policy/Orientation de la Revue	iii
Instructions to authors	v
Recommandations aux auteurs	vii
ARTICLES	
Robert Loov Local buckling capacity of C-shaped cold-formed steel sections with punched webs	1
Gilbert A. Hartley and Moustafa F. El Kafrawy Elongated columns and column offsets in reinforced concrete building frames	8
L. E. Rodway Restoration of concrete snowsheds in Glacier National Park, British Columbia	19
Peter Manning A strategy for multiprofessional design of buildings	25
H.T. Yan The structural design of Terminal 2 parking structure at Toronto (Malton) International Airport	35
A.M. Awad and J.L. Humar Dynamic response of buildings to ground rotational motion	48
Robert Cotterill Bituminous surface treatment and its effectiveness as a municipal road surface — Faro, Yukon	57
Raymond J. Dewey and Merv D. Palmer St. John's Harbour water quality model	65
Peter A. Schaefer and B. Blair Fitzharris Estimation of the mass of large snow avalanches	74
N.K. Sinha Uniaxial compressive strength of first-year and multi-year sea ice	82
R.E. Loov, S.P. Hon, and M.A. Ward Air-entrained grouts suitable for post-tensioning	92
R.J. Allman The transportation of hazardous products in pipelines through urban areas	99
NOTES	
Christopher Hall and A.N. Kalimeris Rain absorption and runoff on porous building surfaces	108
D.E. Allen and G. Pernica A simple absorber for walking vibrations	112
C.S. Surana and J.L. Humar Beam-and-slab bridges with small skew	117
I.C. Goulter Rainfall-elevation relationships in the Wilson Creek Experimental Watershed	121
S.O. Denis Russell Sensitivity analysis with dynamic programming	127
R. Litster Comments on the health and safety in construction aspects of the Proceedings of the IABSE Workshop, Tokyo, 1982	130
DISCUSSIONS	
Cedric Marsh Eccentrically loaded bolted beam connections: Discussion	132
P. Chung Wing and P.J. Harris Eccentrically loaded bolted beam connections: Reply	133
P. F. Doyle Stochastic analysis of high flows in some Central British Columbia rivers: Discussion	133
BOOK REVIEWS/CRITIQUES DE LIVRES	
G.H. Tattersall and P.F.G. Banfill The rheology of fresh concrete: Reviewed by V.M. Malhotra	135
F.D. Lydon Concrete mix designs: Reviewed by V.M. Malhotra	136
ERRATA	
Baidar Bakht and Leslie G. Jaeger Erratum: Bridge aesthetics	137
Bassem M. Eid and Sheldon H. Zemell Erratum: Dynamic analysis of a suspended pump in a vertical well connected to the ocean	137

JUNE/JUIN

ARTICLES	
D.J. Laurie Kennedy and Mona A. Hafez A study of end plate connections for steel beams	139

J.L. Humar Design for seismic torsional forces	150
W.F. Baird and K.R. Hall The design of armour systems for the protection of rubble mound breakwaters	164
G. Putz, D.W. Smith, and R. Gerard Microorganism survival in an ice-covered river	177
William James and Ali Unal Evolving data processing environment for computational hydraulics systems	187
K.J.D. Ridley, J.K. Bewtra, and J.A. McCorquodale Behaviour of compacted fine-grained soil in a brine environment	196
T.P. Halappa Gowda and L.E. Post Mixing zone studies in the Grand River Basin	204
Merv D. Palmer and Raymond J. Dewey Beach fecal coliforms	217
Murty K.S. Madugula and Sujit K. Ray Ultimate strength of eccentrically loaded cold-formed angles	225
Van-Thanh-Van Nguyen A stochastic description of temporal daily rainfall patterns	234
David J. Cuming Ontario's heritage bridge program	239
K.M. Ang and G.A. Morris Analysis of three-dimensional frames with flexible beam-column connections	245
Darryl J. Calkins Ice cover melting in a shallow river	255
A. Lavoie, J. de la Noüe et J.B. Sérodes Récupération de microalgues en eaux usées: étude comparative de divers agents floculants	266
Michel Massiera et Claude Pelchat Construction du barrage OA-II sur la rivière Eastmain	273
Brian B. Hope and V. Mohan Malhotra The measurement of concrete permeability	287
Gee Tsang Modelling criteria for bubble plumes—a theoretical approach	293
Sameh M. Abdel-Gawad and John A. McCorquodale Hydrodynamic of circular primary clarifiers	299
Peter Bein Uncertainty, time, and risk in the optimization of maintenance and rehabilitation of pavements	308
D.J. Laurie Kennedy and Karen A. Baker Resistance factors for steel highway bridges	324
M. Sylvain Charron et M. Claude Marche Une génération interactive des données pour appliquer la méthode des éléments finis	335
NOTES	
K.H. Bardell Thermal performance of sheet steel walls exposed to fire	346
Merv D. Palmer Surface streaking and fecal coliform levels	351
Murray C. Temple, Dan Racic, and Sandy Pavlica Floor trusses subjected to a concentrated load	355
C.R. Curtis and K.C. Wilson A graphical technique for free-surface transients	362
DISCUSSIONS	
S.K. Ghaswala Bridge aesthetics: Discussion	368
Baidar Bakht and Leslie G. Jaeger Bridge aesthetics: Reply	369
S. Beltaos Ice jams in shallow rivers with floodplain flow: Discussion	370
Darryl J. Calkins Ice jams in shallow rivers with floodplain flow: Reply	372
C.R. Neill Initiation of motion conditions for shale sediments: Discussion	372
BOOK REVIEWS/CRITIQUES DE LIVRES	
Fritz Leonhardt Bridges—Aesthetics and design (Brücken—Ästhetik und Gestaltung): Reviewed by Soli K. Ghaswala	374
C.B. Wilby Structural concrete: Reviewed by N.J. Gardner	376

SEPTEMBER/SEPTEMBRE

ARTICLES

R.M. Korol, E.G. Thimmhardy, and M.S. Cheung Field investigation of out-of-plane deviations for steel box girder bridges	377
---	-----

Edward McBean, Jacques Penel, and Kwok-Lui Siu Uncertainty analysis of a delineated floodplain	387
Felix Kulka and T.Y. Lin Comparative studies of medium-span box girder bridges with other precast systems	396
K.S. Sivakumaran and Walter H. Dilger Analysis of concrete structures subjected to sustained temperature gradients	404
Frieder Seible and Alex C. Scordelis Nonlinear behaviour and failure analysis of multicell reinforced concrete box girder bridges	411
Malcolm J.S. Hirst Thermal loading of concrete bridges	423
A. Wankiewicz Analysis of winter heat flow in an ice-covered Arctic stream	430
D.D. Andres and P.F. Doyle Analysis of breakup and ice jams on the Athabasca River at Fort McMurray, Alberta	444
T.P. Halappa Gowda and R.J. Dewey Impact of proposed Glengowan Dam flow augmentation on Thames River water quality	459
W.K. Oldham and G.M. Stevens Initial operating experiences of a nutrient removal process (Modified Bardenpho) at Kelowna, British Columbia	474
B.R. Claus, S.O. Russell, and P. Schaerer Variation of ground snow loads with elevation in Southern British Columbia	480
J.C. Beauchamp, M.Y.T. Chan, and R.H. Pion Repair and evaluation of a damaged truss bridge — Lewes, Yukon River	494
Richard M. McClure and Harry H. West Full-scale testing of a prestressed concrete segmental bridge	505
S. Beltaos A conceptual model of river ice breakup	516
Alan A. Smith and Joseph P. Falcone MIDUSS — A design program for storm water sewerage	530
Timothy Tilsworth and Daniel W. Smith Cold climate facultative lagoons	542
D.J. Harman, A.G. Davenport, and W.S.S. Wong Traffic loads on medium and long span bridges	556
J. Marsalek and W.E. Watt Design storms for urban drainage design	574
N. Elhadi, A. Harrington, I. Hill, Y.L. Lau, and B.G. Krishnappan River mixing — A state-of-the-art report	585
Y. Dubuc, R. Desjardins, F. Briere, and D.L. Piron Utilization of a microcomputer in the calculation of calcocarbonic equilibrium curves	610
Adel Fam Analysis and design of a rigid frame bridge with skew, curved plan geometry	616
Z.L. Szeliski and I.A. Elkholy Fatigue investigation of a railway truss bridge	625
D.C. Marett and C.E. Hanlan The Pretoria Avenue Bridge — old and new	632

NOTES

Murty K.S. Madugula and Sujit K. Ray Cross-sectional properties of cold-formed angles	649
Karol Rohan et Gérald Pilon Influence de la turbulence sur la force tractrice dans les canaux rectangulaires lisses	655
J. Springfield Axially compressed members	662

DISCUSSIONS

J.L. Humar A proposal to improve the static torsional provisions for the National Building Code of Canada: Discussion	668
W.K. Tso A proposal to improve the static torsional provisions for the National Building Code of Canada: Reply	669

ARTICLES

- J. Snelling** The Merivale Rail Bridge, Brisbane, Australia 673
- James K. Iverson and Ralph R. Rattray** Construction of the Linn Cove Bridge 685
- K.A. Baker and G.L. Kulak** Fatigue strength of a groove weld on steel backing 692
- G.W. Taylor** Design of the Murray and Wolverine River rail bridges 701
- C.D. Smith** Scour control at Outlook Bridge — A case study 709
- Eugen Ruus, Bryan Karney, and Farouk A. El-Fitiany** Charts for water hammer in low head pump discharge lines resulting from water column separation and check valve closure 717
- E.J. Schiller and P. Kahangire** Analysis and computerized model of the automatic hydraulic ram pump 743
- R.A. Dorton, B.S. Richardson, and A. Fam** Ontario Modular Bridge Analysis System 751
- Hid N. Grouni and Andrzej S. Nowak** Calibration of the Ontario Bridge Design Code 1983 edition 760
- O.E. Ramakko** The Twelve Mile Creek bridges — Design and construction 771
- R. Alex Harrington and D.G. McLean** Field observations of river bed scour on the Peace River near Fort Vermilion, Alberta 782
- Bernard Michel** Comparison of field data with theories on ice cover progression in large rivers 798
- S.P. Chee and M.R.I. Haggag** Flow resistance of ice-covered streams 815
- R.A. Dorton** The Ontario bridge code — Development and implementation 824
- J.R. Billing** Dynamic loading and testing of bridges in Ontario 833
- Fernando A. Branco and Roger Green** Bracing for composite box girder bridges 844
- Alan A. Smith and Ken-Beck Lee** The rational method revisited 854
- Donald E. Grierson and Gordon E. Cameron** Computer-automated synthesis of building frameworks 863
- Phyllis Rose** Into the twentieth century — Two Toronto bridges 875
- Luc Lainey and René Tinawi** The mechanical properties of sea ice — A compilation of available data 884
- F.R. Wilson, A.M. Stevens, and J.B. Robinson** Identifying mode choice constrained urban travel market segments 924
- Murty K.S. Madugula and Sujit K. Ray** Biaxial bending of cold-formed angle members 933
- Abdul Ghani Razaqpur and Amin Ghali** Forces at flange-web connections in T-beams 943
- A.G. Davenport and D. Surry** Turbulent wind forces on a large span roof and their representation by equivalent static loads 955
- F.A. Branco and R. Green** Bracing in completed composite box girder bridges 967
- K.C. McMartin, A.T. Quaile, and F.J. Keenan** Strength and structural safety of long-span light wood roof trusses 978

NOTES

- John L. Honsaker, Ian A. Campbell, and R.B. Bryan** Remote semiautomatic instrumentation for intermittent streamflow measurement and suspended sediment sampling 993
- R. Frederking and M. Nakawo** Ice action on Nanisivik wharf, winter 1979–1980 996
- Satish C. Sharma and Afifi H. Soliman** Improvements in calibration and understanding of the competing opportunities model of trip distribution 1003
- Karen A. Baker and D.J. Laurie Kennedy** Resistance factors for laterally unsupported steel beams and biaxially loaded steel beam columns 1008

DISCUSSIONS

- Baidar Bakht and Leslie G. Jaeger** Beam-and-slab bridges with small skew: Discussion 1020
- C.S. Surana and J.L. Humar** Beam-and-slab bridges with small skew: Reply 1021

Avigdor Rutenberg Dynamic response of buildings to ground rotational motion: Discussion	1021
A. M. Awad and J.L. Humar Dynamic response of buildings to ground rotational motion: Reply	1022
